

Fast Track Degree Pathway

Master → Doctorate

Fast Track Degree Options:

- School of Trichology
- School of Herbal Science
- School of Holistic Health & Functional Medicine
- School of NeoTrichology™

Fast-Track Degree Pathway Overview

The **Master → Doctorate Fast Track** at KISSED University of Healing Arts & Sciences is designed for students who already possess a bachelor's degree in any field and wish to advance directly into master-level and doctoral-level training in Trichology Science, Herbal Science, Holistic Health & Functional Medicine, or NeoTrichology™.

This condensed pathway removes all bachelor-level coursework and allows students to complete the required graduate and doctoral competencies in a streamlined, self-paced, pay-as-you-go model. Each course contains one video lecture, one assignment, and one final exam, granting students the flexibility to take as many or as few courses as they wish per semester.

The program eliminates redundancy found in traditional degree structures and provides a clear pathway from foundational graduate courses to advanced doctoral research and clinical integration. Students complete their journey with the Doctoral Capstone Project Sequence, replacing the traditional dissertation.

Program Highlights

- Designed exclusively for bachelor's degree holders
- Self-paced, accelerated graduate-to-doctoral progression
- Pay-as-you-go, immediate course access
- No overlapping or duplicate coursework
- Optional clinical intensives available
- Leads to board certification eligibility
- Completion in 12–18 months, depending on pace
- Doctoral Capstone Project required (no dissertation)

**International Board of
Trichology & Holistic
Medicine (IBTHM)**

**Accreditation
Commission for
Integrative Sciences
(ACIS)**

Core Curriculum Requirements

- GEN-501** Anatomy & Physiology
- GEN-502** Psychology of Healing & Communication
- GEN-503** Integrative Nutrition & Human Biology
- GEN-504** Ethics & Professional Conduct

**American Association
of Drugless
Practitioners (AADP)**

****Core Courses are required to be taken prior to specialized courses**

Master → Doctorate (cont'd)

Schools:

- School of Trichology Science
- School of Herbal Science
- School of Holistic Health & Functional Medicine
- School of NeoTrichology™

School of Trichology Science

TRI-502 Autoimmune Disorders & Hair Loss
TRI-503 Functional Medicine Applications in Scalp Health
TRI-504 Psychoneuroimmunology & Hair Growth
TRI-505 Nutraceuticals & Clinical Formulation
TRI-702 Functional & Psychosomatic Disorders of the Scalp
TRI-703 Neuroendocrine Integration & Hair Loss
TRI-704 Integrative Clinical Protocol Design
TRI-705 Psychoneuroimmunology in Scalp Science
DOC-704 Capstone Proposal
DOC-705 Capstone Project Implementation
DOC-706 Capstone Defense & Publication

School of Herbal Science

HBS-501 Advanced Phytotherapy & Plant Chemistry
HBS-503 Herbal Pharmacology & Nutrient Integration
HBS-504 Botanical Research & Evidence-Based Practice
HBS-505 Herbal Manufacturing & Product Development
HBS-701 Advanced Botanical Chemistry & Phytopharmacology
HBS-702 Global Ethnobotany & Integrative Herbalism
HBS-703 Evidence-Based Clinical Herbalism
HBS-704 Nutrigenomics & Herbal Therapeutics
DOC-704 Capstone Proposal
DOC-705 Capstone Project Implementation
DOC-706 Capstone Defense & Publication

School of Holistic Health & Functional Medicine

HHF-501 Systems Biology & Functional Pathways
HHF-502 Nutrigenomics & Epigenetics
HHF-503 Advanced Functional Diagnostics
HHF-505 Mind-Body Medicine & Trauma Integration
HHF-701 Systems-Based Research in Functional Medicine
HHF-704 Psychoneuroimmunology & Hormonal Regulation
HHF-705 Integrative Approaches to Chronic Disease
HHF-706 Nutritional Biochemistry & Detoxification
DOC-704 Capstone Proposal
DOC-705 Capstone Project Implementation
DOC-706 Capstone Defense & Publication

School of NeoTrichology™

NEO-501 Advanced NeuroTrichology & Psychosomatic Research
NEO-502 Integrative Emotional Health & Scalp Disorders
NEO-503 Functional Medicine in Neuroendocrine Hair Loss
NEO-504 Advanced Trauma-Informed Interventions
NEO-701 Advanced NeuroTrichology™ Research & Applications
NEO-702 Trauma, Identity, and Hair Disorders
NEO-703 Functional Medicine in Psychodermatologies
NEO-704 Emotional Regulation & Nervous System Repair
DOC-704 Capstone Proposal
DOC-705 Capstone Project Implementation
DOC-706 Capstone Defense & Publication

Optional Electives & Workshops Overview

Optional electives and workshops at KISSED University of Healing Arts & Sciences are designed to enhance the Fast-Track learning experience through hands-on training, clinical application, and advanced practitioner development. While these offerings are not required for graduation, they provide students with the opportunity to deepen their skills, strengthen clinical confidence, and gain practical experience within their chosen specialization. Electives include a variety of in-person and virtual workshops, live clinical labs, and professional intensives that align with real-world practice in Trichology Science, Herbal Science, Holistic Health & Functional Medicine, and NeoTrichology™. Each elective follows a self-paced or workshop-based format, offers a certificate of completion, and allows students to customize their educational journey according to their interests, goals, and desired level of mastery.

Optional Hands-On Clinical Labs & Professional Workshops

(Not required for graduation)

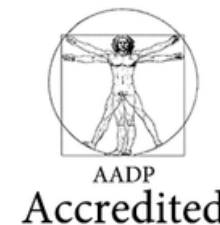

- Herbal Formulation & Apothecary Lab
- Herbal Product Development Workshop
- Botanical Identification Field Lab
- Microscopic Hair & Scalp Analysis Hands-On Lab
- Non-Surgical Hair Replacement Systems Workshop
- Low-Level Laser Therapy Practical Training
- Microneedling for Hair Loss Clinical Certification
- Mind-Body Trauma Release Lab
- Psychodermatology & Emotional Mapping Workshop
- Trauma-Informed Practitioner Skills Lab
- Functional Diagnostic Testing Workshop
- Detoxification & Energy Systems Lab
- Applied Functional Nutrition Lab
- Clinic Setup & Service Pricing Intensive
- Branding & Content Creation for Holistic Practitioners
- Client Experience & Treatment Planning Lab
