

# Certification in Herbal Science (Associate Equivalent)

Graduates of this degree track qualify for credentials of board certified:

- **Certified Herbalist**
- **Board Certified Holistic Health Practitioner**

## Program Summary

The Herbal Medicine Certification Program introduces students to the art and science of herbal healing. Students learn how to identify, prepare, and blend herbs for therapeutic use while gaining an understanding of the human body from a holistic and functional perspective.

This program empowers graduates to formulate custom herbal remedies, integrate plant medicine into wellness practices, and pursue professional certification as Herbal Medicine Practitioners or Board-Certified Holistic Health Practitioners.

## Program Highlights

- 6-week accelerated certification blending science and ancient herbal wisdom.
- Hands-on Herbal Lab (in-person or virtual) to craft teas, tinctures, and salves.
- Professional Herbal Kit included for on-campus students; optional for remote learners.
- Learn formulation, safety, herbal energetics, and business foundations.
- Board Certification eligibility through ACIS or IBTHM.
- Earn 36 transferable credits toward a Bachelor of Science in Herbal Science or Holistic Health & Functional Medicine.
