

Certification in Trichology Science (Associate Equivalent)

Graduates of this degree track qualify for credentials of board certified:

- Board Certified Trichologist
- Master Trichologist (Must have active state license)
- Board Certified Holistic Health Practitioner

Program Summary

The Trichology Certification Program is a 6-week accelerated training that merges scalp science, psychology, and holistic healing. Students explore the anatomy, physiology, and pathology of the hair and scalp while learning how to develop customized treatment plans using herbal medicine, functional nutrition, and advanced clinical techniques. This program prepares graduates to operate as Certified Trichologists, qualifying them for board certification through ACIS, AADP, or IBTHM. Graduates become part of a global network of integrative scalp specialists leading the future of holistic trichology.

Program Highlights

- 6-week structured online curriculum with weekly video modules and assignments
- 2-Day Clinical Training during Week 6 (in-person hands-on intensive)
- Includes professional Trichology Kit with tools and materials used in clinic
- Eligible for Board Certification through ACIS or IBTHM
- Business mentorship included through The Trichology Business module
- Alumni access to advanced continuing education and fast-track degree pathways
